

CCR&R PRESENTS

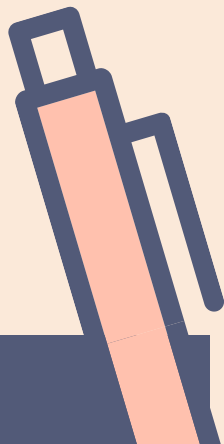

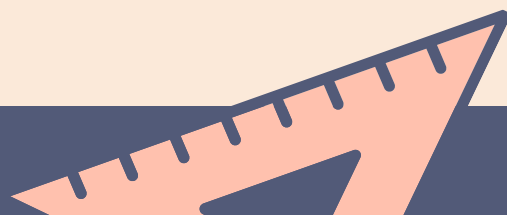

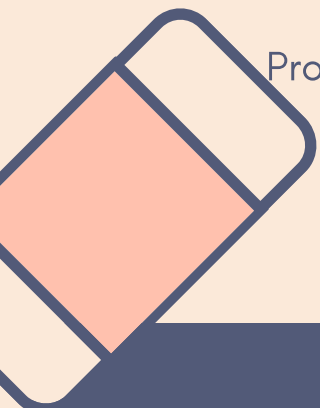

2020 CENSUS IN THE CLASSROOM

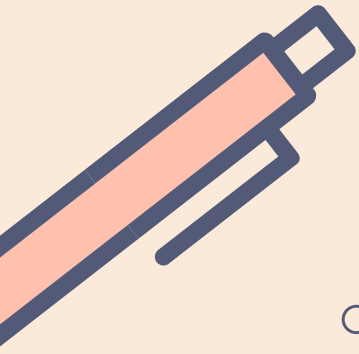

SHAPES!

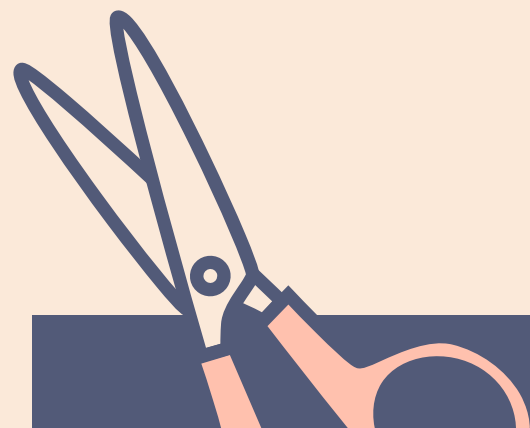

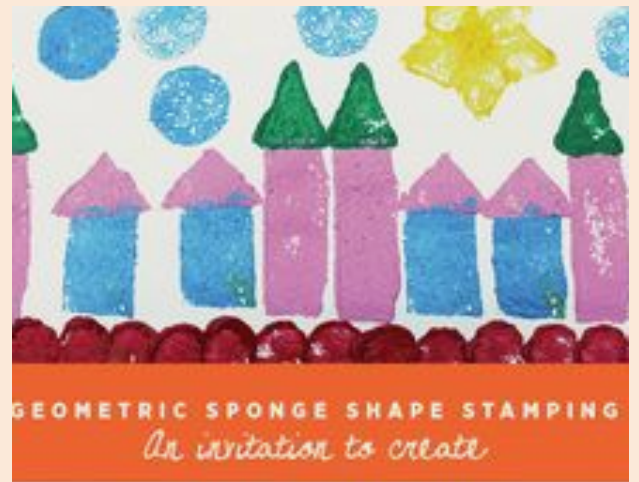

Shapes are all around us and make up our communities.

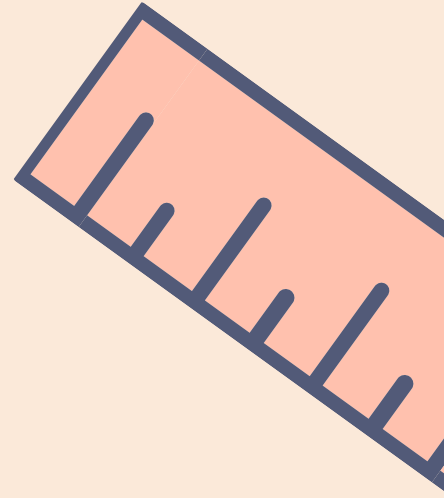

Provide children with shapes and encourage them to decorate houses or create a map of their communities.

Offer children different shaped sponges to create homes, communities, or people.

Talk with the children about how people are made up of all types of shapes and sizes.

Offer children opportunities to create their family using different shapes.
